PROJECTS

- Cat Shelter Adoption Platform
 - <https://koto-serdce.web.app/>
 - HTML · SCSS · JavaScript · Node.js · Firebase
 - Built a full-stack web app for a Daugavpils cat shelter to streamline adoptions. Includes a public gallery of cats and a secure admin panel for non-technical staff.
 - Firebase Auth with hidden login trigger
 - CRUD system for managing cat profiles
 - Image uploads via Firebase Storage
 - Responsive UI, deployed on Firebase Hosting
- Roast My Portfolio (Personal Project)
 - <https://roastmyportfolio-smoky.vercel.app/>
 - React · Node.js · Groq API · Vercel
 - Developed an AI-powered web app that analyzes and "roasts" user portfolios with automated feedback.
 - Integrated Groq API for real-time AI responses
 - Built dynamic React frontend with API handling
 - Deployed on Vercel for fast, serverless performance
- TradeHub - Clothing Trading Platform
 - <https://tradehub-986b0.web.app/>
 - HTML · SCSS · JavaScript · Node.js · Firebase
 - Created a simple platform for users to list and trade clothing items. Focused on clean UI and core functionality.
 - Item listing and basic trading workflow
 - Firebase backend for data storage
 - Responsive design with SASS
 - Deployed on Firebase Hosting
